B. AMENDMENTS TO THE CLAIMS

- (original) A game ball comprising: 1 1. a casing having a laced region; and 2 a lacing coupled to the laced region of the casing, the lacing having an 3 exposed surface, at least a portion of the exposed surface of the lacing having a pebbled 4 5 texture. 2. (original) The game ball of claim 1, wherein the entire exposed surface 1 2 of the lacing includes the pebbled texture. 3. (original) The game ball of claim 1, wherein the pebbled texture 1 2 comprises a plurality of spaced apart pebble-like projections. 4. 1 (currently amended) The game ball of claim 3, wherein the plurality of projections are consist of any combination of at least two shapes selected from the 2 group consisting of irregularly shaped pebble-like projections, hemi-spherically shaped 3 4 projections, generally oval shaped projections, generally triangular shaped projections, generally square shaped projections, generally rectangular shaped projections, 5 generally diamond shaped projections, generally pentagon-shaped projections, other 6 polygonal shaped projections, conical projections, frustoconical projections, cylindrical 7 projections, pyramid-shaped projections, and cubic projections, and combinations 8 thereof. 9 5. (original) The game ball of claim 3, wherein the plurality of projections 1 are arranged in a generally evenly spaced pattern across at least a portion of the 2 exposed surface. 3
- 6. (original) The game ball of claim 3, wherein the plurality of projections are randomly arranged across at least a portion of the exposed surface.

Atty. Dkt. No.: WT0115

7. (original) The game ball of claim 3, wherein the plurality of projections are generally of equal size.

- 8. (original) The game ball of claim 3, wherein the plurality of projections include projections of two or more different sizes.
- 9. (original) The game ball of claim 3, wherein each of the pebble-like projections has a maximum length and a maximum width, and wherein the maximum length and the maximum width define an aspect ratio of within 0.2 and 5.0.
- 1 10. (original) The game ball of claim 9, wherein the aspect ratio is within 2 0.33 and 3.0.
- 1 11. (original) The game ball of claim 4 wherein the lacing includes at least
 2 one longitudinally extending segment and a plurality of transversely extending
 3 segments, wherein the plurality of projections on the longitudinally extending segment
 4 have a first shape, and wherein the plurality of projections on the transversely
 5 extending segment have a second shape.
- 1 12. (original) The game ball of claim 4, wherein the entire exposed surface 2 of the lacing includes a plurality of pebble-like projections.
- 1 13. (original) The game ball of claim 4, wherein the lacing further
 2 comprises an inner substrate and an outer layer, wherein the outer layer includes the
 3 exposed surface, and wherein the inner substrate is formed from one or more materials
 4 selected from the group consisting of a woven cloth, a non-woven cloth, a urethane
 5 impregnated cloth, at least one nylon strand, at least one polyester strand, a metal wire,
 6 a plastic, a vinyl, a polymer, a latex, a rope, a leather strip and a combination thereof.
 - 14. (original) The game ball of claim 12 wherein the outer layer is made of an outer material selected from the group consisting of a wet process polyurethane, a

1

- dry process polyurethane, a coagulated polyurethane, a polyvinylchloride foam, a
- 4 rubber, a polymeric material, an elastomeric material, and a combination thereof.
- 1 15. (canceled) A game ball comprising:
- a casing having a laced region; and
- a lacing coupled to the laced region of the casing, the lacing having an
- 4 exposed surface and a plurality of spaced-apart projections extending over at least a
- 5 portion of the exposed surface, the spaced-apart projections defining a plurality of
- 6 valleys, the projections having a height of between 0.002 and 0.250 inches.
- 1 16. (canceled) The game ball of claim 15, wherein the projections are
- 2 pebble-like projections.

- 1 17. (canceled) The game ball of claim 16, wherein the height of the pebble-
- 2 like projections range between 0.003 and 0.100 inches.
- 18. (canceled) The game ball of claim 16, wherein the pebble-like
- 2 projections have a height of at least 0.004 inches.
- 1 19. (canceled) The game ball of claim 16, wherein the pebble-like
- 2 projections have a height of at least 0.005 inches.
- 1 20. (canceled) The game ball of claim 16, wherein the pebble-like
- 2 projections have a height of at least 0.010 inches.
- 1 21. (canceled) The game ball of claim 16, wherein the entire exposed
- 2 surface of the lacing includes the pebble-like projections.
- 1 22. (canceled) The game ball of claim 16, wherein the plurality of pebble-
- 2 like projections are selected from the group consisting of irregularly shaped pebble-like
- 3 projections, hemi-spherically shaped pebble-like projections, generally oval shaped

Atty. Dkt. No.: WT0115

- 4 pebble-like projections, generally triangular shaped pebble-like projections, generally
- 5 square shaped pebble-like projections, generally rectangular shaped pebble-like
- 6 projections, generally diamond shaped pebble-like projections, generally pentagon-
- shaped pebble-like projections, other polygonal shaped pebble-like projections,
- 8 generally conical pebble-like projections, generally frustoconical pebble-like
- 9 projections, generally cylindrical pebble-like projections, generally pyramid-shaped
- pebble-like projections, generally cubic pebble-like projections, and combinations
- 11 thereof.
- 1 23. (canceled) The game ball of claim 16, wherein the plurality of pebble-
- 2 like projections are arranged in a generally evenly spaced pattern across at least a
- 3 portion of the exposed surface.
- 1 24. (canceled) The game ball of claim 16, wherein the plurality of pebble-
- 2 like projections are randomly arranged across at least a portion of the exposed surface.
- 1 25. (canceled) The game ball of claim 16, wherein each of the pebble-like
- 2 projections has a maximum length and a maximum width, and wherein the maximum
- length and the maximum width define an aspect ratio of within 0.2 and 5.0.
- 1 26. (canceled) The game ball of claim 25, wherein the aspect ratio is within
- 2 0.33 and 3.0.
- 1 27. (canceled) The game ball of claim 15, wherein the plurality of
- 2 projections are spaced apart by a plurality of valleys, and wherein each valley has a
- width of between 0.005 and 0.250 inches.
- 1 28. (canceled) The game ball of claim 15, wherein each valley has a width
- of between 0.008 and 0.100 inches.

- 1 29. (canceled) The game ball of claim 15, wherein the valleys have a
- 2 transverse cross-sectional shape selected from the group consisting of generally U-
- 3 shaped, generally V-shaped, generally hemi-spherically shaped, irregularly shaped and
- 4 combinations thereof.
- 1 30. (canceled) A game ball comprising:
- a casing having a laced region; and
- a lacing coupled to the laced region of the casing, the lacing having an
- 4 exposed surface, at least a portion of the exposed surface of the lacing having a set of
- 5 markings generally configured to be a generally two-dimensional simulation of a
- 6 pebbled texture.
- 1 31. (canceled) The game ball of claim 30, wherein the entire exposed
- 2 surface of the lacing includes the markings.
- 1 32. (canceled) The game ball of claim 30, wherein the markings are
- 2 selected from the group consisting of irregularly shaped markings, generally circular
- markings, generally oval markings, generally triangular markings, generally square
- 4 markings, generally rectangular markings, generally diamond shaped markings,
- 5 generally pentagon-shaped markings, other polygonal shaped markings, and
- 6 combinations thereof.
- 1 33. (canceled) The game ball of claim 30, wherein markings are arranged in
- a generally evenly spaced pattern across at least a portion of the exposed surface.
- 1 34. (canceled) The game ball of claim 30, wherein the markings are
- 2 randomly arranged across at least a portion of the exposed surface.
- 1 35. (canceled) The game ball of claim 30, wherein the markings are
- 2 generally of equal size.

- 1 36. (canceled) The game ball of claim 30, wherein the markings include 2 projections of two or more different sizes.
 - 37. (canceled) A game ball comprising:
- a casing having a laced region; and
- a lacing coupled to the laced region of the casing, the lacing including an
- 4 outer material and an inner substrate coupled to the outer material, the outer material
- 5 having an exposed surface that is compressible, resilient, and tactile, the outer material
- 6 having a density of between 0.2 and 1.3 gr/cm³ and a durometer of between 10 and 75
- 7 on a Shore A hardness scale,
- 1 38. (canceled) The game ball of claim 37, wherein the inner substrate
- 2 includes an intermediate material and at least one strand of high tensile strength
- 3 material.

- 1 39. (canceled) The game ball of claim 38, wherein at least one of the
- 2 intermediate material and the strand of high tensile strength material has a density that
- 3 is greater than the density of the outer material.
- 1 40. (canceled) The game ball of claim 38, wherein the intermediate material
- 2 has a durometer value on the Shore A hardness scale that is greater than the durometer
- 3 value of the outer material.
- 1 41. (canceled) The game ball of claim 37, wherein the outer material has a
- 2 durometer value on the Shore A hardness scale of within the range of 20 to 70.
- 1 42. (canceled) The game ball of claim 37, wherein the outer material has a
- density of between 0.35 to 0.65 gr/cm³.
- 1 43. (canceled) The game ball of claim 37, wherein the outer material has a
- density of between 0.2 to 0.4 gr/cm³.

- 1 44. (canceled) The game ball of claim 37, wherein the outer material has a density of between 0.55 to 0.90 gr/cm³.
- 1 45. (canceled) The game ball of claim 37, wherein the intermediate material 2 is selected from the group consisting of a vinyl, a plastic, other polymers, a leather, a 3 cloth, a rubber, an elastomer, and combinations thereof.
- 1 46. (canceled) The game ball of claim 38, wherein the at least one strand of 2 high tensile strength material is selected from the group consisting of a nylon strand, a 3 polyester strand, a fiber, a wire, a polymer, and combinations thereof.
- 1 47. (canceled) The game ball of claim 37 wherein the outer material has a
 2 modulus of elasticity of between 30 and 110 kg/cm² and a tensile strength between 450
 3 and 600 kg/cm².
- 1 48. (canceled) The game ball of claim 37 wherein the outer material is 2 selected from the group consisting of a wet process polyurethane, a dry process 3 polyurethane, a coagulated polyurethane, a polyvinylchloride foam, a rubber, a 4 polymeric material, an elastomeric material, and a combination thereof.

1

- 49. (canceled) The game ball of claim 37 wherein at least a portion of the exposed surface includes a pebbled texture.
- 50. (canceled) The game ball of claim 49, wherein the pebbled texture comprises a plurality of pebble-like projections selected from the group consisting of irregularly shaped pebble-like projections, hemi-spherically shaped pebble-like projections, generally oval shaped pebble-like projections, generally triangular shaped pebble-like projections, generally square shaped pebble-like projections, generally rectangular shaped pebble-like projections, generally diamond shaped pebble-like projections, generally pentagon-shaped pebble-like projections, other polygonal shaped

- 8 pebble-like projections, generally conical pebble-like projections, generally
- 9 frustoconical pebble-like projections, generally cylindrical pebble-like projections,
- generally pyramid-shaped pebble-like projections, generally cubic pebble-like
- projections, and combinations thereof.
- 1 51. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 irregularly shaped pebble-like projections.
- 1 52. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 hemi-spherically shaped projections.
- 1 53. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally oval shaped projections.
- 1 54. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally triangular shaped projections.
- 1 55. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally square shaped projections.
- 1 56. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally rectangular shaped projections.
- 1 57. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally diamond shaped projections.
- 1 58. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 generally pentagon-shaped projections.
- 1 59. (new) The game ball of claim 3, wherein the plurality of projections are
- 2 polygonal shaped projections.

ω,

- 1 60. (new) The game ball of claim 3, wherein the plurality of projections are conical projections.
- 1 61. (new) The game ball of claim 3, wherein the plurality of projections are frustoconical projections.
- 1 62. (new) The game ball of claim 3, wherein the plurality of projections are cylindrical projections.
- 1 63. (new) The game ball of claim 3, wherein the plurality of projections are 2 pyramid-shaped projections.
- 1 64. (new) The game ball of claim 3, wherein the plurality of projections are 2 cubic projections
